

Template for tinted visor for outdoor use of the Microsoft HoloLens.  
by Nathan Gaydhani

1. Print out this template at 100% size.
2. Stick this template to a sheet of neutral density plastic film that blocks about 60% of the light.
3. Cut around the template.
4. Apply sticky tape to the areas marked at the sides with a dotted line, to stick the visor to your HoloLens.
